

### **Instructions on fire safety at the Patriot hotel**

If you are visiting the hotel for the first time, try to remember well the location of exits and stairs.

#### **In the event of a fire in your room:**

1. Immediately report the incident to the fire brigade by phone 112;
2. If it is not possible to eliminate the fire on your own, leave the room and close the door without locking it;
3. Be sure to report the fire to the administrator on duty or another representative of the administration;
4. leave the danger area and act as directed by the administration or the fire department.

#### **In the event of a fire outside your room:**

1. Immediately report the incident to the fire brigade by phone 112;
2. Leave the room by closing the windows and the door, and leave the building;
3. If the corridors and stairwells are heavily smoky and you cannot leave the room, stay in the room with the windows wide open. A closed and well-sealed door can protect you from dangerous temperatures for a long time. Cover cracks and vents with water-dampened towels and bedding to avoid smoke poisoning.
4. Try to inform the administration about your location by phone.
5. With the arrival of firefighters at the scene, go to the window and give a sign to help you.
6. It is not recommended to use the elevator during evacuation.
7. You can wait out the fire on a balcony or loggia, while it is necessary to close the balcony door.

**SMOKING IN THE ROOM IS STRICTLY FORBIDDEN!**
